

## POLICY ON BULLYING PREVENTION

This Bullying Prevention Policy is created pursuant to and is in compliance with Section 27-23.7 of the Illinois School Code (105 ILCS 5/27-23.7). South Campus serves a unique population of students with disabilities and, therefore, the policy set forth herein is tailored to address the needs of South Campus's student population. Bullying causes physical, psychological, and emotional harm to students which interferes with a safe, civil, and healthy learning environment. Additionally, bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping or dropping out of school, fighting, use of drugs/alcohol, sexual harassment, and sexual violence.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, physical appearance, socioeconomic status, academic status, pregnancy, parenting status, homelessness, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited at South Campus. No student shall be subjected to bullying:

- 1) During any school-sponsored education program or activity;
- 2) While in school, on school property, on school buses or other school vehicles, or at school-sponsored or school-sanctioned events or activities;
- 3) Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment; or
- 4) Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school if the bullying causes a substantial disruption to the education process or orderly operation of the school. This item (4) applies only in cases in which the school administrator or teacher receives a report that bullying through this means has occurred and does **not** require the school to staff or monitor any non-school-related activity, function or program.

Nothing in this policy is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the United States Constitution under Section 3 of Article 1 of the Illinois Constitution.

### **RESPONSE TO BULLYING REPORTS**

Upon receipt of a report or bullying, South Campus will investigate whether such reported act of bullying is within the permissible scope of its jurisdiction pursuant to this policy.

Consistent with federal and state laws and rules governing student privacy rights, as applicable to South Campus, and the policies of South Campus, the parents/guardians of all students involved in an alleged incident of bullying will be notified of such, along with threats, suggestions, or instances of self-harm determined to be the result of bullying, within 24 hours after the school’s administration is made aware of the student’s involvement in the incident. As appropriate, the above-named Administrator/Staff shall also discuss the need for interventions and availability of services, which may include social work services, counseling, school psychological services, other interventions, including community-based services, and restorative measures. South Campus shall make diligent efforts to notify a parent/guardian, utilizing all contact information the school has available or that can be reasonably obtained by the school within the 24-hour period.

South Campus serves a unique population of students with disabilities, Emotional Disability, Specific Learning Disability, Speech Language Impairment, Intellectually Disabled, Other Health Impairment, Autism, or Traumatic Brain Injury for students ages 6 to 22. Due to the nature of the

population served by South Campus and the possibility that certain acts may be manifestations of a student's disability rather than an intentional act of bullying, as part of determining whether a reported act of bullying is within the permissible scope of the school's jurisdiction, each reported instance of bullying will be reviewed and assessed for the need to investigate on a case-by-case basis and as determined to be appropriate by South Campus's Principal, Ms. Edward.

If determined to be appropriate for investigation and within the school's jurisdiction, South Campus will comply with the following procedure for promptly investigating and addressing the report(s) of bullying:

- South Campus will make all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.
- Any reports of bullying will be kept confidential to the extent possible given the need to investigate the reported claim.
- School support personnel and other staff members with relevant knowledge, experience and training on bullying prevention, as deemed appropriate, may be involved in the investigation process.
- As soon as possible after a report is received, the Principal, or his/her designee, will be notified of the report of the incident(s) of bullying.
- Consistent with the federal and state laws, as applicable to South Campus, and the policies governing student privacy rights and confidentiality, parents/guardians of the students who are parties to the investigation may be provided relevant information regarding the investigation, as deemed appropriate by the Principal or his/her designee, and an opportunity to meet with the Principal or his/her designee, to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying, as deemed appropriate.

South Campus may implement interventions to address reports of bullying. Interventions that may be taken to address findings of incidents of bullying in the school, include, but are not limited to: school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services. Any student who is determined, after an investigation, to have engaged in an intentional act of bullying will be subject to disciplinary consequences as deemed appropriate and consistent with the school's disciplinary policies, and/or the disciplinary policies of the student's referring school district, as applicable and deemed appropriate. South Campus is a nonpublic, therapeutic school and an agent of Illinois placing school districts, as such, South Campus may share information regarding incidents of bullying with the referring school district(s) of those students involved in a

bullying incident, and an individualized education program (“IEP”) meeting may be convened to discuss the impact, if any, on the student’s current educational program, placement, supports and services. Additional services that are available within the referring school district and community, such as counseling, support services, and other programs, should be discussed directly with the student’s referring school district by the parent/guardian.

Reprisal or retaliation against any person who reports an act of bullying per this policy is a violation of this policy and strictly prohibited. Such reprisal or retaliation will be treated as bullying for the purpose of determining appropriate consequences and anyone engaging in retaliation or reprisal against any person who reports an act of bullying may face consequences and appropriate remedial action as deemed necessary by South Campus and consistent with the school’s disciplinary policies. No person will be subject to consequences for making a good-faith report of bullying. Appropriate consequences and remedial action, which are consistent with the school’s disciplinary policies, may also be taken against a person found to have falsely accused another of bullying as a means of retaliation or as a means of bullying.
